

MANDARIN TREASURE AFTER SCHOOL CLASSES

The primary goal of the after school lessons is to help K-5th graders build a solid foundation for learning Chinese as a second language.

The Tools

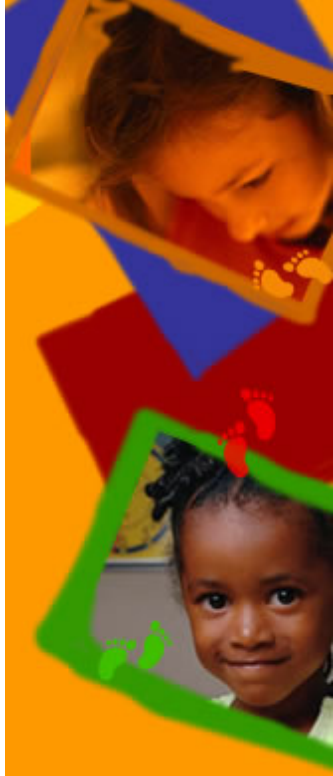

"Chinese Made Easy for Kids" is our main text and workbook to teach listening and speaking and reading skills.

Activities and songs will make the lessons fun for kids!

We (hope to) be in the Chinese New Year's Parade.

For Parents

It is not necessary that Mandarin be spoken at home. Over 50% of Mandarin students in San Francisco do not come from Mandarin speaking environments and some of these have won awards for their Mandarin proficiency and study.
